Profile

Aspiring and dedicated software engineer with experience in a wide range of programming languages and frameworks. Passionate about building efficient, user-friendly solutions and contributing to impactful projects. Seeking opportunities to grow technical skills and collaborate in innovative environments.

Objective

To contribute as a software engineer by leveraging my technical skills in programming, framework development, and user-centric design to create innovative and efficient solutions. I am eager to work in a dynamic environment where I can grow professionally, collaborate with a talented team, and make meaningful contributions to impactful projects.

Technical Skills

Programming Languages: TypeScript, Python, Rust, Java, GoLang, C#, C++.
Frameworks and Libraries: Node.js, React.js, Next.js, Express.js, Spring, Spring Boot, FastAPI, jQuery, Tauri, Tailwind.
Tools and Technologies: Git, Firebase, SQL, MongoDB, Supabase, Vercel.

Professional Experience

Monitor/Trainee
Brasil Mobile School (2021 - 2024)

Assisted students with coding concepts and technologies, providing guidance on code reviews and practical projects. Collaborated with instructors to ensure an effective and engaging learning experience for all participants. In addition to developing auxiliary projects using **Typescript, Python, React, C#, Android, and Tauri.**

Extracurricular Courses

- ***Harvard University***:
  - *Web Programming with Python and JavaScript (2024)*
  - *Databases with SQL (2024)*
- ***Alura***: *Technology and Robotics (2024)*
- ***Brasil Mobile School:***
  - *Complete UX/UI Design Course (2022)*
  - *Mobile Development (2023)*
  - *Complete and Creative Developer (2024)*
- ***Wizard by Pearson:*** *Prontos pro Mundo (2024)*

Projects

Win

Win is a modern and lightweight code editor.

Technologies: **Typescript, Rust, Sveltekit, Tauri, Git.**

Repository/Download: https://github.com/Furyforev3r/win

Ivory Social

A microblogging social network inspired by Twitter/X.

Technologies: **Typescript, Sveltekit, Git, Vercel, Firebase.**

Live Demo: https://ivory-social.vercel.app/

Repository: https://github.com/Furyforev3r/ivory

FiloStream

A sleek and intuitive platform to organize and stream videos, movies, and series all in one place. Features customizable categories and a user-friendly interface.

Technologies: **Typescript, Sveltekit, Google Cloud, Git, Vercel, Firebase.**

Live Demo: https://filostream.vercel.app/

Repository: https://github.com/Furyforev3r/filostream

Aim

Aim is a training platform to help sharpen up your core FPS aiming skills!

Technologies: **Typescript, Sveltekit, Git, Vercel.**

Live Demo: https://aim-black.vercel.app/

Repository: https://github.com/Furyforev3r/aim

Nextflow.

An application designed to organize tasks quickly and locally using drag-and-drop technology.

Technologies: **Typescript, React.js, Git, Vercel, Next.js.**

Live Demo: https://nextflow.vercel.app/

Repository: https://github.com/Furyforev3r/Nextflow

Stockwise.

A CRUD API developed in REST format to manage business inventory, facilitating operations such as creating, reading, updating, and deleting products.

Technologies: **Typescript, Express.js, Git, Firebase.**

Repository: https://github.com/Furyforev3r/StockWise
